

mGBL – Game 1 – Instructions how to install

Requirements:

- Screensize: min. 176x208 pixels, max. 240x320 pixels
- Java: CLDC 1.1, MIDP 2.0

Testphones:

Although we want to address a wide range of mobile phones, this is not possible due to a huge amount of additional implementation efforts.

Therefore we specified some handsets we are going to support, and are trying to keep the application portable.

- Sony-Ericsson M600i
- Sony-Ericsson P990i
- Sony-Ericsson v630i
- Nokia 6230i

Installation instructions:

- Download the .jar file to your computer
- Install it on your mobile via Bluetooth ("OBEX Object Push") or USB-data-cable.
- For Nokia phones: you need to use the Nokia PC Suite
